

Outstanding careers at The University of Adelaide

Lecturer/Senior Lecturer

School of Chemical Engineering
(Ref: 4542)

Applications are invited for a position of Lecturer/Senior Lecturer (Level B/C) in the School of Chemical Engineering. You should preferably have expertise and research interests that complement the current research strengths of the School, which include energy and combustion (including laser diagnostics and coal-related research), microalgal engineering, water treatment, polymers, nanoporous materials, confined fluids, pharmaceutical engineering (including bioprocessing and mammalian cell technology), biochemical interfacial engineering, winery engineering, rheology, and mineralogy and minerals processing.

Continuing position available immediately.

Salary: (Level B) \$70,075 - \$83,215 per annum.
(Level C) \$85,837 - \$98,982 per annum.

Plus an employer superannuation contribution of 17% applies.

Closing date 24/10/08

Lecturer/Senior Lecturer

Australian School of Petroleum
(Ref: 13911)

The Australian School of Petroleum is Australia's pre-eminent centre for education, training, and research in the upstream petroleum industry. We are seeking to appoint an outstanding individual to an academic position at the level of Lecturer or Senior Lecturer in petroleum engineering. You should have demonstrated research ability in petroleum engineering or a related discipline, and the ability to teach at all levels in petroleum engineering. The successful applicant will be appointed at an appropriate level depending on qualifications and relevant experience.

Continuing position available immediately.

Salary: (Level B) \$70,075 - \$83,215 per annum.
(Level C) \$85,837 - \$98,982 per annum.

Plus an employer superannuation contribution of 17% applies.

Closing date 24/10/08

Lecturer in Experimental Physics

School of Chemistry & Physics (Ref: 15201)

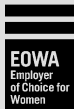

We are seeking to appoint a high calibre and dynamic Experimental Physicist to a tenurable position. Candidates with research expertise in either atmospheric physics or photonics are particularly encouraged to apply. You will have a strong commitment to excellence in research, teaching and student learning. In addition, you will have an outstanding research track record and will be expected to develop an active research program. You will also contribute to undergraduate and postgraduate teaching, the supervision of students, and assist with the administrative responsibilities of the Physics discipline.

Continuing position available from 1 January 2009.

Salary: (Level B) \$70,075 - \$83,215 per annum.
Plus an employer superannuation contribution of 17% applies.

Closing date 29/10/08
